

What People

Are Saying About SwimSafe!

"SwimSafe pH Reducer in my salt-generator pool; not only kept the pH from drifting upward, but the water went from dingy to sparkling. My guests even remarked about it!"

*Jamie Hayden— Hayden Pool Services
Farmers Branch, TX*

"SwimSafe Tile Cleaner is the best I have ever used. It's not runny, yet not too thick, cuts through grease and oily residue from high bather loads."

*Craig Wooster —Pool Specialist
Raleigh, NC*

"We tried the Stain and Scale Sequester on a pool with some bad stains. The customer called and said that the pool looked beautiful."

*Karen Davis, Manager— Spas and Things
Florence, SC*

"After 1-2 years of use, salt generators accumulate mineral deposits. I have been using SwimSafe Stain and Scale Sequester to both solve existing problems of scale build-up, and to prevent future staining and build-up by adding it once a week at maintenance dose rate."

*Angela Staton — Paradise Pools
East Flat Rock, NC*

"With your SwimSafe Tile Cleaner, I am cleaning better with less effort and lower cost."

*Jamie Hayden— Hayden Pool Services
Farmers Branch, TX*

" My service manager used SwimSafe Tile Cleaner and told me it worked better than the other they had tried. I then used it and agreed it was a superior tile cleaner."

*Chris Sigmion, General Manager — Genco Pools & Spas
Simpsonville, SC*

"One of the reasons we went with SwimSafe is your customer support. We were able to have our questions answered by a knowledgeable person rather than someone who was reading from a script or tech manual."

*Sarah Mathews — Charles Shuler Pool Co.
Salisbury, NC*

"We use well water to fill our pool. I've had a persistent problem with pool stain which did not test as iron or copper. In any case, I used a major brand stain remover which did not work. Then I used SwimSafe Stain and Scale. It worked perfectly."

*Diane Bolton, Owner — Iron City Pool & Spa
Gaffney, NC*

"I'm recommending SwimSafe to customers, both as a safety precaution and to protect a new pool surface from etching."

*Bill Howell — Carolina Aqua Sun
Charlotte, NC*

"I'm very impressed with the buffering action of SwimSafe's pH Reducer. What's more, my customers complain about handling acid. SwimSafe provides the safer alternative to dry acid."

*Chris Jones — Sunshine Chemical
Clearwater, FL*

"I particularly like SwimSafe's performance with Salt Chlorine Generators."

*Buddy Dunlap — Southern Leisure Pool & Spa
Mobile, AL*

"I received very positive feedback from customers. I love the packaging; it's very attention-getting."

*Paul Singer — Swimco Pool & Patio Supplies
Greenville, SC*

"I'm impressed with the non-drift performance of pH Reducer in spas and heated pools as well as the fact that it is non-corrosive to copper tubing and metal parts in the heat exchanger."

*Twyla Wilbanks — Clearwater Pool
Cleveland, TN*

"Some customers are not adequately safety conscious to be using dry acid. The SwimSafe product line is perfect for our family-oriented customer base."

*Shelly Wilson — Retail Manager
Amhearst, VA*

"I can personally attest to the safety of SwimSafe pH Reducer. My dog, Duke, accidentally got into the bag and ate some of the product!"

*Michael Hughes — Hughes Pool & Supply
Murphy, NC*
